

A BRIGHTER FUTURE

KIDS EDUCATION ELEMENTARY SCHOOL SYSTEM 4 SONO PITAFI

Agha Khan, a spirited 12-year-old boy, grew up in a remote village Sono Pitafi where access to quality education was nearly non-existent. His father, a farmer, earned less than 10,000 rupees per month, barely covering the family's basic needs. With limited societal support for boys' education, **Agha Khan's** dreams seemed unattainable.

In 2018, **Agha Khan** enrolled at the **Kids Education Elementary School System Sono Pitafi** through the Foundation Assisted Schools (FAS) initiative, supported by SEF, GoS, and implemented by the **Lanjari Development Foundation (LDF)**. For the first time, **Agha Khan** had access to free education, dedicated teachers, and extracurricular opportunities.

Despite initial struggles, **Agha Khan's** perseverance paid off. He excelled in his studies and showed remarkable talent in school's competitions. His hard work was recognized in 2023 when he earned a fully funded scholarship to **IBA Community College Ubauro**.

Agha Khan now envisions a future as a medical doctor, determined to return to his village and provide healthcare services to underserved communities. His journey demonstrates the transformative power of education and unwavering determination.
