

NADEEM AHMED' RISE FROM ADVERSITY

AL-MUDASIR ENGLISH MEDIUM SCHOOL KHANGARH

Born into a family of farmer, **Nadeem Ahmed** often worked alongside his father in the fields to make ends meet. Their household income of less than 12,000 rupees per month left little room for education, and **Nadeem's** future seemed limited to the cycle of poverty his family had endured for generations.

In 2019, **Nadeem Ahmed** joined the **Al-Mudasir English Medium School Khangarh** under the FAS program, supported by SEF, GoS, and implemented by **Lanjari Development Foundation LDF**. With access to free education, books, and encouragement from his teachers, **Nadeem** began to thrive academically.

Nadeem's determination stood out, and his efforts bore fruit in **2024** when he secured a fully funded scholarship to **IBA Community College Ubauro**. There, he continues to excel, dreaming of becoming an engineer to improve infrastructure in underserved areas.

Nadeem's story is a testament to how education can empower individuals to break free from the chains of poverty and build a better life.
