

FROM FIELDS TO A FUTURE

AL-MUDASIR ENGLISH MEDIUM SCHOOL KHANGARH

Muzamil Hussain, an 11-year-old boy, grew up in a small village where education was a distant dream. His father worked as a farm laborer, earning just 10,500 rupees a month, barely enough to feed their family. **Muzamil Hussain** often accompanied his father to the fields, assuming he would follow the same path.

In 2018, **Muzamil** was enrolled in the **Al-Mudasir English Medium School Khangarh** through the Foundation Assisted Schools (FAS) program by the Sindh Education Foundation (SEF) and the Government of Sindh (GoS). The program, implemented by the **Lanjari Development Foundation (LDF)**, provided him with free books, uniforms, and access to quality education.

Muzamil Hussain quickly excelled in his studies and showed exceptional talent in mathematics. By 2023, his hard work paid off when he earned a fully funded scholarship to **IBA Community College Ubauro**, where he continues to thrive.

Muzamil Hussain aspires to become a software engineer, determined to bring technological advancements to his community.
