

AYAZ ALI'S PATH TO CHANGE

KIDS EDUCATION ELEMENTARY SCHOOL SYSTEM 5 DARGAHI ARBANI

Ayaz Ali, a bright and determined boy from the Mahar community, faced significant challenges growing up. His father, a Farmer, struggled to support the family on an income of less than 15,000 rupees per month. Education for boys was not prioritized in his village, and **Ayaz** often had to fight for his right to attend school.

In 2017, **Ayaz** enrolled at the **Kids Education Elementary School System Dargahi Arbani** under the FAS program. With the support of Sindh Education Foundation (SEF) and GoS and the guidance of the **Lanjari Development Foundation LDF**, he quickly excelled in his studies, particularly in science and mathematics. His active participation in debates and cultural events showcased his multifaceted talents.

In 2024, **Ayaz** earned a fully funded scholarship to **NJV Government Higher Secondary School Karachi**. Now, **Ayaz Ali** is thriving in his new academic environment and aspires to become an army officer, serving his nation and inspiring others to rise above their circumstances.
