

FROM POVERTY TO PROMISE

KIDS EDUCATION ELEMENTARY SCHOOL SYSTEM 4 SONO PITAFI

Born into a family of agricultural laborers, **Muhammad Shaban** knew early on that education could be his only way out of the cycle of poverty. With his father earning less than 13,000 rupees a month, **Muhammad Shaban** often worked alongside him in the fields to make ends meet. Despite this, he remained determined to study.

Muhammad Shaban joined the **Kids Education Elementary School System Sono Pitafi** in 2017 under the FAS program. His teachers, recognizing his potential, offered him guidance and support that helped him excel in both academics and

extracurricular activities.

In 2024, **Muhammad Shaban** achieved the extraordinary: he was awarded a scholarship to **Ghazali Premier College Lahore**, a dream he had nurtured since childhood. Today, he is pursuing his education with the goal of joining the armed forces and giving back to his community. His journey underscores the importance of opportunity and the impact of believing in a child's potential.
